

Futures League Scoring Information

Introduction to Futures League Scoring

Scoring in the Futures League is designed to be simple, effective, and aligned with what matters most—fun, development, and fair competition. Our approach supports a positive experience for every athlete, while still capturing the spirit of competition in a way that's clear and easy to understand. By focusing on compulsory skills scored from 1 to 5 in 0.5 increments, the scoring system keeps things consistent and clear. It also allows athletes to showcase their individual flair through Shine Skills, which are also scored from 1 to 5 in 0.5 increments, with an added bonus available for increased complexity—striking a balance between structure and creativity. The below tables identifies what determines the score scale:

Score	0	0.5	1	1.5	2	2.5	3	3.5	4	4.5	5
Guide	Skill not shown	Skill not easy to identify	4 large errors	3 large errors	2 large errors	1 large error and a moderate error	1 large error and 2 moderate errors or 3 minor errors	1 moderate error and 1 minor error	2 minor errors	1 minor error	Ideal Model Perfect

Awards and Banding

Depending on the level, athletes are awarded based on a combination of results including individual banded score ranges, apparatus-specific scores, overall athlete performance, and team achievements. Each division has a specific banding range that determines eligibility for individual medals, ensuring recognition is aligned with developmental expectations.

Power Banding

Green = 125+ Orange = 100 - 124 Red = 40 - 99

Dynamos Banding

Green = 175+ Orange = 55 - 74 Red = 40 - 54

Flip Banding

Green = 80+ Orange = 60 - 79 Red = 30 - 59

Forces Banding

Green = 110+ Orange = 71 - 99 Red = 40 - 70
